Their 1957

"AUDIE"

Named in honor of AUDIE MURPHY, America's most decorated hero of World War II, this brilliant red rose is symbolic of the bravery and valor of Audie Murphy. His deeds on the battlefield now are legendary, and while Audie still was not old enough to vote when the Germans surrendered, this is the man who won the Congressional Medal of Honor and 23 decorations, while miraculously living through the wounds incurred by (1) a mortar shell bursting between his feet; (2) a series of perforations from an artillery shell, and (3) a sniper's bullet in the hip.

Audie Murphy in full uniform with medals:

- MEDAL OF HONOR
- DISTINGUISHED SERVICE CROSS
- SILVER STAR WITH AN OAK LEAF CLUSTER
- LEGION OF MERIT
- BRONZE STAR
- ETO CAMPAIGN RIBBON WITH SEVEN BATTLE STARS
- PRESIDENTIAL UNIT CITATION RIBBON
- EXPERT INFANTRYMEN'S BADGE
- FRENCH LEGION OF HONOR CHEVALIER
- CROIX DE GUERRE WITH TWO PALMS
- FOURAGERE
- PURPLE HEART WITH TWO OAK LEAF CLUSTERS

AUDIE MURPHY ROSE
\$2.75; 3 for \$7.20

AUDIE MURPHY — Patent Applied for (Hybrid Tea)
The long tapering buds of vivid rich crimson are exquisitely shaped, with long clasping sepals, which recurve gracefully as the flower opens. The brilliant $4\frac{1}{2}$ to $5\frac{1}{2}$ inch blooms have wonderful texture, and are a luminous currant to cherry-red, shading orient-red near the center, with a velvety sheen. The blooms have a spicy fragrance, and come on long cutting stems . . . excellent keeping qualities as a cut flower. Extremely free flowering, the tall symmetrical plants produce quantities of bloom on long cutting stems, which is set off by an abundance of dark green semi-glossy, disease resistant foliage.

Hybridized by the famous Dr. Walter E. Lammerts, of Livermore, California, Audie Murphy is the result of a cross of two famous All-America winners, Charlotte Armstrong x Grande Duchesse Charlotte.

New Everblooming Hybrid Tea Roses

AUDIE MURPHY — Patent Applied for (Lammerts) (New! See cover illustration and page 2). Long tapering buds of vivid rich crimson, with clasping sepals, slowly unfold into lovely blooms of iridescent red, with a velvety sheen. Wonderful petal texture; spicy fragrance; long cutting stems; abundant dark green foliage; prolific bloom; all add up to make this a favorite red for arrangements . . . long lasting as a cut flower. 4 ft. \$2.75 each.

BLANCHE MALLERIN — Plant Pat. 594 (Mallerin). The frosty, shimmering white buds open to beautifully modeled fragrant blooms, set off by lush green foliage. 3 ft. \$2.25 each.

BUCCANEER — Plant Pat. 1119. \$2.50 each. (See Grandiflora Roses, page 15)

BURNABY — Plant Pat. 1314 (H. M. Eddie). Exhibition form — double light yellow blooms on long cutting stems. Strong compact plants with excellent foliage. 3 ft. \$2.50 each.

CAPISTRANO

TO OUR ROSE FRIENDS:

You are invited to visit our 88 acre rose nursery located on Highway 6, just west of Portland, between Beaverton and Hillsboro (see map on back cover).

Located in the center of our nursery, is our new modern warehouse, office and display area (note air photo of our buildings on back cover). A new lath-house to house Rhododendrons, Azaleas, Evergreens, etc., will be added.

We have selected 139 varieties of roses for our catalog offerings this season, out of 200 varieties we grow. These we consider "The Cream of the Crop" and list on the following pages. After the patent number, we have listed the name of the hybridizer, and also have included the average height of each variety, as we feel this will be of interest to you. Some items are in limited supply this year, and we have listed these in the "Exhibitor's Corner" on page 14. Be sure to order early to avoid disappointment, and please list alternate varieties in case we are sold out of one or two items on your order.

Our Oregon-Grown roses are of finest quality, selected 2 yr. No. 1 grade. Grown without irrigation, the plants are hardy and well-ripened, with a strong, fibrous root system.

Roses from Roseway

All prices in this catalog are for
2 yr. No. 1, field-grown dormant Roses.

Roses should be planted as soon as possible after delivery. After unpacking, soak the roots in a pail of muddy water about the consistency of syrup to coat the roots with damp soil.

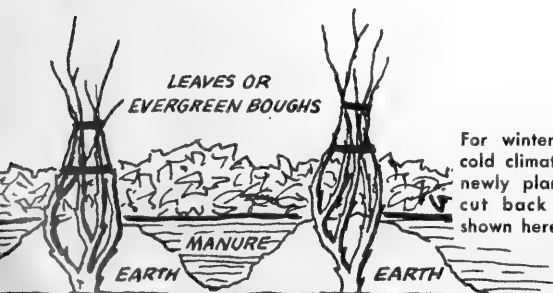

All-America Rose Selections recommends that the roots be placed so they will grow downward at a 45 degree angle. Make sure that the holes are large enough to take roots without crowding and deep enough so the lower part of the bud union or crown will be one inch below the surface. Work soil around roots to hold them in place.

When roots are completely covered, pour in half a pail of water to eliminate air pockets. When the water has drained off, fill the remainder of the hole with soil and tamp it down firmly. Prune any bruised ends or weak stems.

Build a soil mound from six to eight inches high around each plant. This will protect them until growth begins and will avoid injury to the canes by an unseasonal freeze in colder climates. The mound should be removed carefully after growth is under way.

For winter protection in cold climates the tops of newly planted roses are cut back farther than shown here.

DORMANT ROSE PLANTS

Please read before ordering by mail!

GUARANTEE — We have been commercial rose growers for 22 years, and ship roses to all parts of the United States, Hawaii and Alaska. Our roses are budded on Multiflora Japonica root stock, for extra vigor and long life, and for a strong fibrous root system. Every bush is guaranteed to be true-to-name, carefully selected and packed to arrive in good condition.

If any rose purchased fails to start growing the first Spring, after being properly planted and cared for, we will replace free of charge. This free replacement policy does not include shipping charges. Any claims for adjustments must be made with us on or before July 1st on purchases made the preceding Fall or Spring. In no event will we be liable for more than the original purchase price.

We will not be liable for plant losses as a result of flood, drought, frost, carelessness, neglect or other causes beyond our control.

SHIPPING — Our new rose crop is available about November 1st, at which time we commence shipping, and continue through the middle of May for colder areas. However, orders for May shipment should be placed as early as possible, and in no event later than April 15th.

All Dormant Roses shipped out, will be top quality, 2 yr. No. 1 grade, the finest available, moderately pruned for planting. In the early Spring, all newly planted bush roses should be cut back to six to eight inches of top; climbers to 18 to 24 inches, with the top bud pointing outward.

All dormant plants are shipped by parcel post prepaid, but due to increased costs, we find it necessary to make a flat charge of 50c per mail order to one address. This applies whether the order is for one plant or a dozen.

NO MINIMUM ORDER — We shall be pleased to take care of small orders for one or two plants, but add 50c for handling charge.

Exception — POSTPAID in Greater Portland area.

SUBSTITUTIONS — We never substitute unless advised to do so. However, due to unforeseen circumstances, such as crop failures or unknown demands, we cannot always supply all the varieties you order. To eliminate correspondence and delay, please indicate if we may substitute varieties of equal or more value in the same color range as ordered, or list one or two substitute varieties acceptable to you.

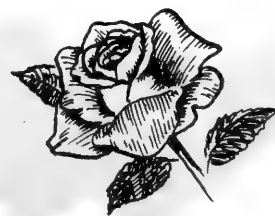

See Page 8 for Quantity Prices

JULY 1 DEADLINE

Rose communications regarding plant performance must reach us by July 1st following a fall or spring planting.

GRANDIFLORAS *The Newest Thing in Roses!*

A tremendously free-flowering class, with blooms like Hybrid Teas, produced both singly and in long-stemmed clusters. Plants are extremely vigorous, and superb for tall hedges, borders, or for backing other low-growing Roses. Wonderful for cut roses too!

BUCCANEER — Plant Pat. 1119 (Swim). Long sleek buds of pure gold, open to cupped blooms of buttercup-yellow. Tall vigorous grower; excellent foliage. 5-6 ft. \$2.50 each.

CARROUSEL — Plant Pat. 1066 (Duehrsen). Nonfading blooms of vivid garnet-red cover the plant from Spring until frost. Vigorous; disease-resistant foliage. 4 ft. \$2.00 each.

DEAN COLLINS — Plant Pat. 1279 (Lammerts). See illustration back cover. Called "The Lazy Gardener's Rose" because it thrives everywhere with a minimum of care. Strong vigorous grower, with glossy dark green, mildew and disease-resistant foliage. The Spiraea-red buds open slowly to very double long-lasting blooms of rose-opal and carmine, and in very warm weather take on a coral-salmon coloring which is even more attractive. **The ideal hot-weather rose**, especially recommended for the Mid-West. 4 ft. \$2.00 each.

MONTEZUMA — Plant Pat. 1383 (Swim). Beautifully formed slender buds of vivid coral-salmon, open to high-centered blooms of salmon-orange. Vigorous upright plants; excellent foliage; fine for cutting. 5 ft. \$2.75 each.

QUEEN ELIZABETH — Plant Pat. 1259 (Lammerts). The fragrant buds and blooms of pure pink come in profusion on long cutting stems. Exceptionally vigorous, with deep green glossy foliage. Has wonderful lasting qualities as cut flowers. 5 ft. \$2.50 each.

ROUNDELAY — Plant Pat. 1280 (Swim). Beautifully formed deep red buds to full high-centered blooms of vivid glowing red. Disease-resistant foliage; strong upright plants. \$2.50 each.
